

## JUDGE HOLDS THE 1919 ROAD LAW AS VALID

LOCAL COURT SUSTAINS DEMURRER TO SUIT FILED BY CLAY COUNTY BRICK MANUFACTURER REPRESENTATIVE ATTEMPTING TO HOLD UP BUILDING OF STATE HIGHWAY

## MAY GO TO HIGHER COURT

Judge James P. Hughes, on Monday morning, in the Putnam Circuit court, sustained the demurrer to the complaint led by Campbell and others of Brazil, asking that a permanent injunction be granted, prohibiting the State Highway engineer from proceeding with the building of the State Highway through Clay county. Campbell, who represents Clay county brick manufacturers, had filed suit asking that an injunction be granted, his grounds for asking the injunction being that the 1919 State Highway law was constitutional. A temporary injunction was granted. By sustaining the demurrer of the defendants in the case, Judge Hughes, denies a permanent injunction, and finds the law constitutional. The case probably will be appealed to the higher courts by Campbell.

## GREAT CROWD GOES TO SEE THE BIG GAME

INTERURBAN SELLS 871 TICKETS TO INDIANAPOLIS FRIDAY AND SATURDAY—TWELVE SPECIAL CARS EAST ON SATURDAY MORNING

## SOME GO ON RAILROADS

The number of Greencastle people who went to Indianapolis Friday and Saturday to see the annual DePauw-Wabash game is shown by the sale of tickets to Indianapolis on Friday and Saturday by the interurban company. On Friday afternoon and Saturday morning 871 tickets to Indianapolis were sold by the ticket agents at the station. Two hundred of these tickets were sold Friday afternoon and 671 on Saturday morning. Twelve special east bound cars, each carrying approximately 60 passengers, were required to handle the east bound crowd Saturday morning. Beside this many went on the regular cars and on the railroads, while some drove through in their cars. Although the attendance at the game has not been officially checked up yet, it was estimated that more than 5,000 persons witnessed the game. DePauw's share of the net profits of the game probably will amount to near \$1,500.

## ARM BADLY MASHED IN AN ACCIDENT AT CEMENT PLANT

Fred. Durford, an employee at the Indiana Portland Cement plant, south of town, suffered a badly mashed left arm in an accident at the plant on Sunday. The arm was badly mashed at the elbow and there is a possibility that the arm may have to be amputated, although this morning the physician stated that the outlook for saving the arm was much brighter than on Sunday. The arm was mashed in a machine.

Attention, Sir Knight. Special Conclave of Greencastle Commandery, No. 11, Knights of Pythias, this Monday evening at 7:30 o'clock. Work in the Temple. Edward E. Caldwell, Commander; James McD. Hays, Reporter.

## LOCAL NEWS.

Mrs. Charles W. Hymer, of Philadelphia came Sunday for a visit with her parents, Mr. and Mrs. J. E. O'Hair, who live near Brick Chapel and her sister, Mrs. Oscar Thomas and Mr. Thomas at their home on North Jackson street.

Mr. and Mrs. Alvah Thomas, Mr. and Mrs. Oscar Thomas, Mr. and Mrs. Neal Allen, were the Sunday dinner guests of Mr. and Mrs. J. E. O'Hair at their home near Brick Chapel.

Miss Ella Rector spent Sunday in Crawfordsville with friends.

Glen Lyons and friends motored to Crawfordsville, Sunday.

Mr. and Mrs. John Cross, and Mr. and Mrs. Jerome Bogie, of Brazil motored to Greencastle Sunday and were the guests of Harry Maxwell and family.

Mr. and Mrs. Virgil Brock, who are well known to Greencastle people, having had charge of the music in an evangelistic campaign held last winter in the College Avenue church are now in Crawfordsville conducting the music in a revival in the Christian church.

Roy Ash, who is employed at New Castle, is here for a visit with his parents, Mr. and Mrs. Andrew Ash.

The New Era Club will meet with Mrs. Walter Crawford at her home on West Walnut street, Tuesday afternoon at 2:30 o'clock.

A patriotic address and special music will be the features of an Armistice Day program planned by Supt. E. C. Dodson in the High School auditorium, Tuesday. The exercise will begin at 1 o'clock.

Mrs. George Christy will have charge of the music. The name of the speaker was not given out this morning.

Mr. and Mrs. Elmer Gibson were in Indianapolis for the week end.

Miss Cofene Creason, of Markleville was the week-end guest of Miss Johanna Ash at her home on North College ave.

There will be a clerk-carrier examination held in the postoffice on December 6. Blanks are now obtainable at the local post-office.

Mr. and Mrs. G. Will Conklin and children were in Indianapolis for the week end.

Mrs. Paul Cherry, of Indianapolis, is here for a visit with her parents, Mr. and Mrs. Homer Frazier at their home on South Indiana street.

Miss Marguerite King, of Indianapolis was the guest of friends here over the week-end.

Miss Alma Carrington has gone to Indianapolis for a two weeks' visit with relatives.

Miss Elizabeth Ames and her sister Mrs. E. A. Windsor left today for St. Petersburg, Fla., where they will spend the winter.

Miss Gladys Carson, who is attending DePauw University, spent the week-end with Miss Donnis Saidla, of Crawfordsville.

The Boston Club will meet this evening at 7:30 o'clock with Mrs. J. Y. Denton.

The Bainbridge High School Basketball team suffered its second defeat at the hands of Hendricks County team last Friday night by losing to the fast Amo squad by the score of 25 to 19. The game was fast and clean, Bainbridge holding a slight lead over their opponents until the last five minutes. Some quick offensive work then put Amo in the lead and they succeeded in holding it until the final whistle.

Bee Hive Rebekah lodge will meet tonight at 8 o'clock in regular session. There will be nominations for officers and all members are urged to be present.

## A Piece of Coal

## Ancient Honjuran City.

Copan is an ancient ruined city of northwestern Honduras, on the Copan river. The remains are of unknown antiquity and very extensive, stretching for about two miles along the river. The buildings are of stone, embracing a temple over 600 feet long, with many sculptured figures. The Copan ruins take their name from a modern town to the east of them. This was an Indian stronghold, and was taken after a fierce struggle by the Spaniards under Hernando de Chaves in 1530.

## "Bosker Time" is Cheerful.

The term a "bosker time," which the Australians use to describe a cheerful hour, comes home to its birthplace, little altered. "Bosky," with a similar meaning, was an English colloquialism in the eighteenth century. And "bosky" is still current slang with us, but implying too generous use of the wine cup. There is one phrase in the book of slang which is decidedly pleasing, "Australian grip." It stands for that best of greetings, the honest, hearty hand shake.—London Chronicle.

## These Balance Men.

I profess no special partiality for any critic, who, holding balance in hand, weighs eagerly whatsoever of learning comes to his counter. I question whether he is not taking less of the quality of the wares, than of the fashion of his scales, never questioning their accuracy nor his own levity. Still it must be admitted that these balance men are not without their usefulness, being convenient for appraising market values.—A. Bronson Alcott.

## "Kitchen Middens."

Kitchen middens are great mounds, some 100 feet long and 250 feet wide, found in Denmark, England, Scotland, France and in parts of Europe, North and South America and Australia. They are supposed to be the refuse heaps of prehistoric periods, and are composed chiefly of oyster, periwinkle, cockle and mussel shells. In them are found implements of wood, stone, bones of animals and cinders.

## Edinburgh Landmark Gone.

An interesting bit of old Edinburgh, dating back about 1600, has been burned. The destroyed building, which consisted of a single story and attic, was one of the landmarks of the Holyrood area. It was the old Yew Tree tavern, and stood inside the bounds of the Holyrood sanctuary for debtors, within which, in days of yore, the fugitive was free from the attentions of his creditors.

## Utilizing Paper.

Although there is a great shortage of paper, it is unlikely that many of us have carried economy to the extent indicated in a letter received by a school teacher the other day. "Dear Sir," it ran, "Please excuse Tom being late, but our gas leaks, so we couldn't cook any breakfast. Please send a man to put it right. P. S.—Please let him take this note on to the plumber."

## IN THE HOLY LAND

Old "1080"—most wonderful car in war—so says English war correspondent recounting experiences in holy land. W. T. Massey, noted British Journalist, now recording the Prince of Wales Tour through Canada and the United States, for London Daily Telegraph of London, England, was Official War Correspondent with the English Army—under General Allenby—which wrested the Holy Land and Syria from the Turks.

When telling of his experiences, he says that he used a Ford in many a journey from Beersheba to Jerusalem and to Nazareth, Damascus and Aleppo, and that "in Allenby's final push, this trusty old car took me more than 4,000 miles in six weeks and I believe within one year it travelled over 30,000 miles in a country where roads are few, and these the worst in the world."

"In the Sinai country it is very sandy and it is quite a common sight to see a Ford running along with two rolls of wire netting secured to the foot boards. When the car gets to a place where the sand is impassable, the driver unrolls the netting over the roadway and thus an easily passable wire road is constructed; in fact in some parts of the country permanent wire roads have been made and over these the car runs along easily and smoothly, at thirty miles an hour."

Mr. Massey also stated that the Ford played no small part in helping to deliver the Holy Land and Syria from the Turks, and that his "old '1080' Ford was the most wonderful car in the war." So highly does he regard the merits of the Ford car that he has asked permission to address the men of the Ford factory, who make Ford cars, to tell them his experiences and thank them for their good work in building such reliable motor cars. He expects to visit the Ford factory on the day the Prince of Wales visits Windsor.

## DEATH OF MRS. W. W. HODGE OCCURS SUNDAY

The death of Mrs. Armilda Hodge, age 73, widow of the late W. W. Hodge, Putnamville, occurred Sunday morning at near 7:30 o'clock at the home of her daughter, Mrs. Will Lewis, south east of Putnamville, after an illness of a year of stomach and bowel trouble.

The funeral will be held Tuesday morning 10:00 o'clock at the Methodist church in Putnamville, conducted by the Rev. L. D. Dodd, with interments in the Putnamville cemetery.

Armistice day will be observed at the University tomorrow morning at 10:00 o'clock in Meharry hall. The University choir and University orchestra will furnish the music and the address will be by Phillip L. Erick, of Indianapolis.

Mrs. P. W. Stevens and daughter, Mary, of Kokomo, are here the guests of Mr. and Mrs. James E. Cannon.

## MUNCIE CASE GOES OVER TO JANUARY 12TH

TRIAL CALENDAR FOR NOVEMBER TERM IS FILLED AND MURDER TRIAL GOES OVER UNTIL AFTER THE HOLIDAYS

## ARRAIGNMENT ON TUESDAY

George Muncie, charged with murder in the first degree for the killing of Dr. L. L. Williams, last Monday night, will not be placed on trial for his life until the January term of court.

This became known when Judge Hutchinson announced that the trial calendar for the November term was filled and that it would be impossible to hear the murder trial at this term. By agreement of the attorneys the case was then set down for trial for the second Monday of the January term of court, which will be January 12th.

Arrangements were made to arrange Muncie in the Circuit court Tuesday morning.—Brazil News.

## HIGH SCHOOL NOTES

Noonday lunches began today served by the Domestic Science department under Miss Catherine Harrison. The lunches are for the benefit of the out of town students and others who wish to stay in the building during the noon period. Last year the cafeteria style dinners proved successful from the start and this year a greater number of dinners are expected. It is possible to obtain a good lunch for 25 cents.

James Zeis is absent from school on account of illness.

A basketball game has been scheduled for Wednesday night with Rockville at Rockville. The team will make the trip in autos. Friday night the local five contest with Amo quintette on the floor. Amo has won from Bainbridge and it is stated have a fast quintette.

The enrollment of the junior and senior High schools were given out this morning. It is as follows:

Senior high, 127 boys, 164 girls. Total, 291. Junior high, 90 boys, 92 girls. Total 182. The grand total for the building is 473. It is expected that five hundred students will be enrolled before the second semester.

The practices for the entertainment, "The Wishing Ring," are progressing nicely.

## Town Built by Asiatic Greeks.

A town that was old in the time of Christ has been revealed by a party of British excavators in India. It is supposed to have been built by the Asiatic Greeks who invaded and conquered the Punjab, and the walls and rooms of the king's palace suggest that the architects derived their ideas from the royal dwellings of Mesopotamia and Assyria. Beyond the palace still remain the ruins of houses outlining a street. One odd thing about these old buildings is that they have no doors. Probably they were basements and those who used them entered from above by stairs or ladders. One of the buildings excavated is held to have been built by the Emperor Asoka, who made Buddhism the state religion of India.

## Only the Beginning.

"Liberty hath a sharp and double edge fit only to be handled by just and virtuous men," so Milton asserted long ago, adding that "to the bad and dissolute it becomes a mischief unwieldy in their own hands." Even if we Americans can clear ourselves of being "bad and dissolute," we have much to do before we may claim to be "just and virtuous." Justice and virtue are not to be had for the asking; they are the rewards of a manful contest with selfishness and sloth. They are the result of an honest effort to think straight. . . . Merely to feel is only the beginning; what remains is to think and to act.—Brander Matthews.

## Keep Temper in Check.

Allow temper free reign and you go into the temperance business on your own hook. Just as soon as you permit the inner man to rule without regard to justice, that soon you release a tyrant who will reduce you to bonds and shame. Temper is an unruly master who is usually without reason and decidedly selfish. To gain his own ends he will sell out to the highest bidder. As a rule that bidder has neither conscience nor the desire to have one. It finds that little organ an uncomfortable something to have around. Besides as soon as you begin to gratify temper you will find the hot blood making a rush for your upper story and the result is tragedy.—Exchange.

## Blind Obedience.

"I have often wondered," remarked Mrs. Rogers, "how a horse feels. Now, don't interrupt with some silly remark—I am in earnest! A horse hasn't any idea what is going to happen to him when he is harnessed. He doesn't know how far he is going or what he is going for. To be driven hither and thither, blindly, seemingly, without purpose, with no idea of what it's all about or when it will be over—how must the poor creature feel—what must he think about it all?" "I suppose," said Mr. Rogers, wearily, "that he must feel just as I do when you take me on a shopping expedition with you!"

## Denmark Has Oldest Flag.

The flag of Denmark, a plain red banner, bearing on it a white cross, is the oldest flag now in existence. For more than 500 years both Norway and Sweden were united with Denmark under this flag. In the year 1212 King Waldemar of Denmark, when leading his troops to battle against the Livonians, saw, or thought he saw, a bright light in the form of a cross in the sky. He held this appearance to be a promise of divine aid, and pressed forward to victory. From this time he had the cross placed on the flag of his country and called it the Dannebrog—that is, the strength of Denmark.

## Developing the Sahara.

It has been chiefly the depressing march and lack of safety which have prevented the Sahara from undergoing a useful development. This is an irrefutable fact; thus, for the most abandoned portions geologists have declared that oases could be either created or notably enlarged. It is probable, in fact, that as soon as all the wells are put in proper condition, all the waters are cared for, and advantage taken of all the streams having a capricious or subterranean course, groups of population no longer fearing spoliation of their property and the fruits of their labors by nomadic robbers, will settle in the most favorable places.

## Procrastination.

There are bad habits enough, the Lord knows, but we think the worst of them all is the habit of procrastination. To have a thing to do, and to keep putting it off—we stack up trouble for ourselves every time we do it. When a man gets up in the morning, he should think of what he has to do that day, and then he should pick out the things that are most disagreeable and do them first. It is the best plan in the world. And the result of it is that soon there are no disagreeable

## TIGERS LOSE OPPORTUNITY TO WIN GAME

DEPAUW OUT-PLAYING WABASH IN EVERY DEPARTMENT, EXCEPT PUNTING, FAILS AT CRITICAL POINTS TO TAKE ADVANTAGE OF THEIR OPENINGS

## CONTEST AN INTERESTING ONE

Failing to take advantage of three opportunities to score, the DePauw Tigers lost an opportunity to defeat Wabash in the annual game played in Indianapolis, Saturday, and when the final whistle blew the game was scoreless—a 0-to-0 tie.

DePauw outplayed Wabash in every department of the game, except punting, the Wabash kicker booting the ball to far greater distance than Galloway, the Methodist kicker.

On three occasions, after DePauw had by splendid football rushed the ball down the field to within striking distance of the Wabash goal they lost the ball and allowed Wabash to punt back out of danger. Once a fumble lost the ball. On two other occasions nothing but poor general ship lost opportunity to score.

Once, when within twenty yards of the goal line and after DePauw had rushed the ball down the field, gaining distance on every play, DePauw with two yards to gain, attempted a drop kick. The kick failed and Wabash punted. Then DePauw got the ball and duplicated the feat of rushing it down to within striking distance of the goal line. Then on the fourth down with only 3 yards to go, another drop kick was attempted.

Had the team continued with its straight football, instead of attempting drop kicks, there is little doubt but that it would have scored.

Wabash was never dangerous and it was a shame to lose the game.

The superiority of the DePauw team is shown by the following statistical analysis of the game:

Ground gained by rushing ball, DePauw, 151 yards; Wabash, 47; first downs gained by rushing ball, DePauw, 9; Wabash, 2; average distance of punts, DePauw 35 yards; Wabash, 40 yards; Ground gained by forward passes, DePauw, 68; Wabash, 0; fumbles, DePauw, 3; Wabash, 3.

The DePauw line played a sterling game, piling up the Wabash backs time after time. Galloway for DePauw started his 45 yard run, after catching a Wabash punt, being the long run of the game.

## ALPHA PHI ALUMNAE OF DEPAUW GIVES LUNCHEON

The Alpha Phi Alumnae Club entertained the members of the active chapter at DePauw and the out-of-town alumnae who came to attend the DePauw-Wabash football game Sunday with a luncheon at the Ayres tea room. The table was attractively arranged with yellow chrysanthemums and old gold appointments, old gold being the DePauw color.—Indianapolis Star.

## FARMERS ARE URGED TO ATTEND PURDUE COURSE

County Agent Charles A. Jackson has given out the following article concerning the Farmers' Short Course:

The Farmers' Short Course will be held at Purdue University, Jan. 12 1919. This is the regular time for this course and it is hoped that many people from this county will be able to attend. The men and women are urged to attend this course and make it a big round-up for the agriculture and home making work. The State Association will hold their meetings at the Purdue during that week. The State Corn show will also be held at that time.

An airplane headed south passed over this city Sunday afternoon about 2 o'clock. The machine was flying very low.

#### The Roman Fare.

The Roman soldiers, who built such wonderful roads and carried a weight of armor and baggage, lived on coarse brown bread and sour wine. They were temperate in diet and regular and constant in exercise. The Spanish peasant works every day and dances half the night, yet eats only black bread, onion and water lemon.

#### Famous English Chimneys.

A "twisted chimney" distinguished an Elizabethan manor house in the ancient town of Buckingham, England, which is to be offered for sale shortly, and the auctioneers assert that the secret of this mode of construction is lost, and that the only other "twisted chimney" and that less perfect, is at Hampton Court.

#### Ostrich a Monogamist.

In the wild state ostriches pair in the spring. Once paired they remain mated "till death doth them part." The female pokes a shallow hollow in the ground away from water courses for her nest. During the sitting period the male remains on the nest by night, the female by day.

#### Stars in a Dream.

To dream of stars is said to have the following meaning: If the stars were clear, Dame Fortune is going to smile upon you, but if they were obscured and dusky, then the reverse may be the case.

#### To Tell Age of Fish.

Year rings on the scales of fish are used in Norway and France to determine the age of sardines, whether they have reached their full growth and when they will spawn.

#### Keep Tacks in Jars.

Save all small glass jars. One good use for them is to keep tacks, screws and small nails in. It will save time when looking for a particular kind.

The White Rocks, White Wyandottes, White "Reds" or Rhode Island Whites—are fast coming to the front as high egg producers. The achievements of the White Leghorns seem to overshadow all other white birds.

#### GREEN BONE GOOD FOR HENS

Material Can Often Be Purchased From Local Butcher—Is Substitute for Meat Scrap.

(Prepared by the United States Department of Agriculture.)

Green cut bone can often be purchased from the butcher. This material when procured fresh makes an excellent substitute for beef scrap. It should be purchased in small quantities, as it cannot be kept fresh for any length of time and when spoiled may cause severe bowel trouble. It is best fed in a trough not often than every other day, allowing about one-half ounce per bird. Should severe or continued looseness of the bowels follow the feeding of green cut bone it should be discontinued or the quantity reduced.

#### TRAP-NEST ALL LAYING HENS

Tende to Tame Birds, Thereby Increasing Egg Production and Permitting Clear Record.

When possible it is advisable to trap-nest the layers for the following reasons: (1) To tame the birds, thereby tending toward increased egg production. (2) To furnish definite knowledge concerning traits and habits of individuals. (3) To furnish the only satisfactory basis for utility or other breeding. (4) To eliminate the non-productive hen. (5) To add mechanical precision to judgment and experience in developing and maintaining the utility of a flock.

#### Chickens Having Free Range Utilize Much Waste Product.

they are able to handle small amounts of grain which are not too seriously damaged. It is especially necessary to watch corn and cornmeal, as these feeds are inclined to spoil rather easily.

#### Solitude.

What period do you think I recall most frequently and most willingly in my dreams? Not the pleasures of my youth; they are too rare, too much mingled with bitterness and now too distant. I recall the period of my seclusion, of my solitary walks, of the fleeting but delicious days that I have passed entirely by myself, with my beloved dog, my old cat, with the birds of the field, the birds of the forest, with all nature and her inconceivable Author.—Rousseau.

#### Life Not Merely Lapse of Years.

The mere lapse of years is not life. To eat and drink and sleep; to be exposed to the darkness and the light; to pass round in the mill of habit; and turn the wheel of wealth; to make reason our bookkeeper and turn thought into an implement of trade—this is not life. In all this, but a poor fraction of the consciousness of humanity is awakened, and the faculties still slumber which make it most worth while to be.—James Martineau.

#### Lavender Smokers.

Long before tobacco was known or smoked, sweet lavender was a favorite smoking mixture. Pipes have been dug up in Roman settlements, adorned with base-reliefs picturing the lavender plant. From which it is surmised that the Romans smoked lavender, which, according to writers of the time, is said to produce a feeling "active, ardent, and vigorous."

#### Only One.

A little girl had a twin brother and sister. Now, she was used to the cat having kittens and only one of the kitten family being kept. So when her father brought the twins down to show her she gazed at them earnestly for a small space of time, then said, "Daddy, I think we'd better keep that one!" Pointing, as she thought, to the prettier one!

#### To Remove Ink Stains.

Ink stains on white fabrics can be removed with peroxide of hydrogen. Drop it on the stain with a medicine dropper or, if it is a large spot, pour it on slowly from a spoon. As this preparation has a bleaching effect, great care must be exercised if used on colored materials.

#### Fear in the Child.

"There is a world of truth in Prof. Angelo Mosso's emphatic declaration: 'Every ugly thing told to the child, every shock, every fright given him, will remain like minute splinters in the flesh, to torture him all his life long.'"  
—"Psychology and Parenthood," by H. Addington Bruce.

#### Evil Always to Be Fought.

There can be no compromise with evil. It never is right to license wrong, whatever golden returns it may offer or however difficult it may be to get rid of it. In our social life and in our personal life, wherever evil shows its hand there must be battle, not compromise.—Exchange.

#### For Dull Mirrors.

If mirrors be very dull and speckled, the following method is excellent: Take a small portion of whiting and add sufficient cold tea to make a paste; rub the glass with warm tea, dry with a soft cloth; rub a little of the paste well on the mirror and polish dry with tissue paper.

#### Have Wrong Idea.

People are often more concerned about creating a favorable impression than about the kind of person they wish to be considered. It is like demanding a beautiful photograph without regard to the features of the original.

#### Measure of Greatness.

Great men, great events, great epochs, it has been said, grow as we recede from them; and the rate at which they grow in the estimation of men is in some sort a measure of their greatness.—Principal Sharp.

#### How Starfish Eat.

All the starfish fasten themselves to the matter they wish to devour, turn their stomachs inside out, and unfold their prey. It doesn't sound pretty, but it's effective, and that's all the starfish care about.

#### Root of Generosity.

He who gives what he would as readily throw away gives without generosity; for the essence of generosity is in self-sacrifice.—Henry Taylor.

#### Two Fatalities.

The freight train caused the explosion by hitting a truck loaded with acetylene tanks. The truck and driver was killed.—Buffalo News.

#### Four Into One.

"A monthly holiday, closed all day every Wednesday is also to be observed from April to September."—Glasgow Evening Times.

#### Bonfire of Sermons.

A writer in the Sunday at Home asks the question: Do ministers ever burn their sermons? One of them, it appears, does, and has given his reasons for so doing, and here they are: "Because I did not propose to have my children burdened with my old sermons; because as a result of the war we are in a new day; because I propose to show my wife that there is a lot of 'preach' left in me yet; because I once read in Horace Bushnell that if all the parsonages of the country should burn down in a single night, consuming all the sermons of all the ministers, a great revival would sweep over the land!"

#### Keep Cheerful.

Now's the time to cheer up and gear up. Don't let a lowering horizon or human fumbings disturb you. There have been many dark days before and they were followed by sunshine. There has been distress of nations and it has been followed by great marches of progress. The days of the present are the prelude to coming great things. Look the world in the face and teach it to respect you. Marshal your forces in such order that you have them in easy command and you are geared to serve. After all it's the cheerful face and the geared up life that brings things to pass in this world.—Grit.

For Economical Transportation

As a business man you have faith in your judgment. It is your guide.

And you are shrewd enough to appreciate comparative values—your judgement tells you that, too

It is by comparative standards that we would have you judge the Chevrolet.

Each Chevrolet represents the utmost for the money, and we are so confident that they will appeal to your judgement, that we are willing to be satisfied with your decision after you have inspected our line, and have had the model you are interested in demonstrated to your satisfaction.

Let us demonstrate. Let us show you what the Chevrolet can do.

## CHECK THAT COLD RIGHT AWAY

Dr. King's New Discovery has relieved colds and coughs for fifty years

It was an unusually high quality cold, cough, gripe, and croup remedy when introduced half a century ago. Not once in all the years since then has the quality been allowed to deteriorate. Its effectiveness in combating colds and coughs has been proved thousands of times in thousands of families. Taken by grownups and given to the little ones for the safe, sure treatment of colds and gripe, coughs and croup, it leaves absolutely no disagreeable after-effects. Get a bottle at your druggist's today. 50c. and \$1.20.

## Bowels Act Human

—function gently but firmly without the violence of purgatives—when you treat them with Dr. King's New Life Pills. A smooth-acting laxative that gets right down to business and gratifying results. All druggists—25c. a bottle.

The meeting of the Boston Club has been postponed one week.

The ladies of the Presbyterian church and congregation are most cordially and urgently invited to meet Mrs. M. A. Stone, Tuesday afternoon at four o'clock sharp in the Manse.

The Ladies of the Presbyterian church and congregation are most cordially and urgently invited to meet Mrs. M. A. Stone, Tuesday afternoon at four o'clock sharp in the Manse.

The Tuesday Reading Circle will meet tomorrow afternoon at 2:30 o'clock with Mrs. George Gorrell.

FOR SALE—Desirable lot, commercial, Snyder, Greencastle, R. R. side place, also good Jersey cow No. 2.

Henry Werneke has adopted a kitten. Mr. Werneke found the pussy wandering down town this morning and after catching the cat gave it a much needed banquet. The kitten which is very pretty promises to be a good mascot for the jewelry.

TO BOND HOLDERS—We will now accept all bonds and coupons maturing Nov. 15, AT FULL FACE VALUE, in payment for any securities purchased from us. We make no charge for the collection of coupons or matured bonds.

We buy and sell Indiana Gravel Road Bonds as well as all Government issues.

## An Agreeable Surprise.

"About three years ago when I was suffering from a severe cold on my lungs and coughed most of the time night and day, I tried a bottle of Chamberlain's Cough Remedy and was surprised at the promptness with which it gave me relief," writes Mrs. James Brown, Clark Mills, N. Y. Many another has been surprised and pleased with the prompt relief afforded.

Where the Spike Went.  
Answering a question as to what became of the gold spike that was driven into the last rail laid in building the Union Pacific railroad on its completion in 1869, a subscriber writes: "It was first photographed, and then melted up and recast into very small spikes about 15-16ths of an inch long, and they were distributed to the more prominent railroad men present. Among the recipients was my father, now deceased, from whom I received one of the photographs mentioned and a miniature gold spike. There are probably very few of these now in existence. The original spike was full size and engraved with the officers' names and titles. The miniature was engraved with the date May 10, 1869, and the words: 'Last spike of the Pacific Railway,' and 'Presented by D. Hewes.'"—Outlook.

Cheer Up and Gear Up.  
It takes cheer and gears to make this old world go. The average man has so many things that hold him back that he is in danger of giving up. But the great men of the age are the product of trial. They come through the furnace tried and fitted for life's obstacles because they have dared face the up-grades with a smile. Emerson says, "Nature, when she adds difficulties, adds brains." That may not seem to be true while we are under trial, but the saying holds in the long run. And, besides brains, you must have a reasonable measure of good cheer. It's so easy to go down because there is nothing in the mind to add resistance to the constant thud of adversity. You must cheer up as well as gear up if you are going to win.

## Famous Tyrian Purple.

Tyrian purple, the like of which the world has never seen, was so costly that it was used only by royalty, and hence comes the saying royal purple. The royal robes of ancient kings were dyed with Tyrian purple. This purple dye was extracted from a mollusk called the purple nux, it was found in tropical seas. It had thick shells covered with spines. It secreted a colorless liquid which when exposed to the atmosphere turned purple. History tells us that only a drop or so could be obtained from one mollusk, hence its value. Needless to say there is no Tyrian purple from the fishes of Misbah in the found in these days. When the glory of Tyre and Sidon passed Tyrian purple also passed away.

## Accompanying.

One is most grateful to see from the circulars of the great schools of music, that the art of accompaniment is at last receiving the recognition which it has long been denied. How many teachers notice it in their work? Very few recognize its utility. They are all out to provide show pieces, or solos. Yet if you can put a song down before a player feeling that he will do justice to it, and thereby help the singer, the value of such skill is much greater than the ability to play a solo; and if you can transcribe, a tune up or down, your earning equipment in the musical world is greatly increased. For general purposes this branch of music is the most useful of all.—Exchange.

## Priceless Relics Destroyed.

Many almost priceless relics from the White House during its occupancy by President Harrison and bequeathed to Mrs. Little Eaton, a direct descendant of the late chief executive, were destroyed recently when lightning struck the Eaton home, near the Harrison tomb, and burned it to the ground. Several pieces of mahogany furniture, paintings, antique candlesticks and china, incense, linen and jewelry, vast land grants for much Ohio valley territory and other documents of great historical value were destroyed, as were letters by Presidents James Buchanan, Andrew Johnson, John Tyler and Rutherford B. Hayes and by Daniel Webster.

## Glass Produced by Volcanoes.

Volcanoes are enormous producers of glass, derived just as we get it from the melting of quartz rocks. It is a right good quality of glass, too, though black as ink. In pre-Columbian days the aborigines of Mexico and Central America used it for mirrors and other implements. Our own Indians found it valuable for arrowheads, immense deposits of it being found in the far West. Sulphur, which is so indispensable for a great variety of purposes, is exclusively a volcanic product. Likewise gypsum, which, in the form of plaster of Paris, is a necessity to sculptors, makers of casts and many other industrial workers. Pumice-stone, derived from volcanoes, is used in various arts and crafts.

## Why Londoners Rise Late.

There is one point in defense of London's dislike of early rising, writes a correspondent of the London Chronicle. It is largely a matter of geography, and Greenwich time has a real business value. It enables the Londoner in his working hours to be in touch with more than half the world on the same day. When he gets down to his office in the city at 10 a. m. the business man has the afternoon prices from Bombay or even from Peking, on the one hand, and before he returns home for dinner he has learned the morning news of the American markets. The New Yorker has to rise early, for even when he opens change at 8 a. m. it is already afternoon in London.

## Correct Oil—Tractor Efficiency

Tractors are heavy, hard working, slow moving machines, subject to great strain.

They tend to run hot. The bearings must withstand heavy pressures.

They demand a rich lubricant of high quality—a lubricant which will stand up under the excessive heat—a lubricant correct in body to seal properly the piston rings and insure full compression and full power.

If you use an incorrect oil there is trouble in store for you.

We are lubrication experts.

We base our advice on the Vacuum Oil Company's Chart of Recommendations shown at the right.

The Chart specifies the one grade of Gargoyle Mobiloils best adapted to your tractor engine.

**GARGOYLE**  
**Mobiloils**  
A grade for each type of motor

Its use will insure the greatest efficiency. Shall we send you a barrel, half-barrel or 15 gallon steel drum with faucet?

## FARM POULTRY

### BEST FEED FOR LAYING HENS

Object Should Be to Repair Waste and Furnish Heat to Body and Supply Egg Materials.

(Prepared by the United States Department of Agriculture.)

The nutriment in the feed of laying hens serves a twofold purpose—to repair waste and furnish heat to the body and to supply the egg-making materials. As only the surplus over what is needed for the body is available for egg production, the proper feeds should be fed in sufficient quantities to induce this production.

In supplying feed to fowls there are three kinds of constituents which

It Pays to Feed Hens Regularly and Well.

should be present in certain fairly well-fixed proportions if the desired results are to be obtained most economically. These constituents are mineral, nitrogenous, and carbonaceous, all of which are contained in corn, wheat, oats and barley, but not in the right proportions to give the greatest egg yield. In addition some animal feed and green feed should be supplied.

In feeding poultry a valuable lesson may be learned from nature. In the spring the production of eggs on the farm is an easy matter. Fowls which are at liberty to roam find an abundance of green and animal feed on their range, which with grain furnishes a perfect ration for laying hens. In addition to this they get plenty of exercise and fresh air. So far as lies within his power, then, the feeder should aim to make the winter conditions springlike.

### PORRIDGE FEED FOR POULTRY

Scraps and Waste Are Best Prepared by Running Through an Ordinary Meat Cutter.

Table scraps and kitchen waste are best prepared for feeding by running them through an ordinary meat grinder. After the material has been put through the grinder it is usually a rather moist mass, and it is well to mix with it cornmeal, bran or other ground grain until the whole mass assumes a crumbly condition. The usual method is to feed the table scraps at noon or at night, or at both times, as may be desired, in a trough or on a board. All should be fed that the fowls will eat up clean, and if any of the material is left after one-half or three quarters of an hour it should be removed. If allowed to lie it may spoil and would be very bad for the hens.

### POULTRY NOTES

You get more for dressed poultry by picking it dry than when scalded.

It is almost impossible to give laying hens which are confined too much exercise.

Nature teaches us that fowls should have a wide range and that a farm is the best place for them.

The fall renovation of the poultry business should include a thorough survey of the feed bins and corn cribs.

Idle hens soon grow too fat to lay and in the plans for winter it is well to provide some means to compel them to work.

A burglar could demand no more comfortable living conditions than the red mites and lice receive in some poultry houses. They are thieves of poultry vitality and must be controlled.

Poultry houses should be covered with a good grade of roofing paper, as it makes a tight roof and does not permit the warm air to seep out through the roof, as is the case with shingles.

### Fish Slippery Customers.

Almost every variety of fish is slippery and hard to hold when first caught. This is due to a sort of mucus exuded through the scales and is of the greatest importance to all slimy creatures. One of the important functions of the fish's slimy coating is to protect it from the attacks of fungus, a form of plant life found in all waters. If the fish is so injured that some spot becomes uncovered by slime, a barely visible fungus will be likely to lodge there, and when it is once lodged the process of reproduction is very rapid. It soon extends over the gills and kills the fish. The primary purpose of the slime of the fish is to reduce its friction when in motion through the water, and thereby increase its speed. It also serves as a cushion to the scales, which it thus protects from many injuries.

### Polo Long Popular Game.

Though not so stated in any work of reference, polo, of which a public grand tournament was held at Hurlingham recently, came to England indirectly from Trebizond. There the present Kabak Meidan, or Pumpkin square, occupies the site of a medieval polo ground. The game found great favor with the nobles of Trebizond, and was played much in the same way as modern polo. It produced immense excitement among the spectators, rivaling that of the hippodrome, and was popular possibly because it was dangerous as well as fashionable. Polo caused the death of one emperor of Trebizond, John I, who was killed by a fall from his pony.—London Mail.

### Sad Page in History.

On July 23, in 1758, Louisbourg, a French fortress upon the island of Cape Breton, Canada, was captured by a force of New England militia and British regulars numbering 12,000 men and a fleet of 40 ships. The British were commanded by Sir Jeffrey Amherst and General Wolfe. After the fall of the fortress, the 5,000 men remaining in the French garrison were made prisoners and the Acadians, the French settlers in the surrounding provinces, were forcibly driven from their homes and transported to English colonies. The dispersal of the Acadians is the subject of Longfellow's "Evangeline."

### Made Mouse Earn Living.

More than a century ago a thrifty Scot, David Hutton, saw a pet mouse driving the wheel in its cage round and round. Hutton decided to try to harness the wasted power and make it do something useful. By experimenting he found that a mouse would run about 10 1/4 miles a day, and a half-penny worth of oatmeal would feed the little animal for 35 days, during which he would run 562 miles. He hit on the idea that, as the mouse turned the wheel, it should twist and reel sewing cotton, and he set about constructing a tiny thread-mill. Every day the mouse twisted and reeled from 100 to 120 threads, each 25 inches long.

### Almost Too Obliging.

A Scottish emigrant on his arrival at Montreal stopped for a moment to examine a coat hanging in front of a clothing store, when the proprietor asked him if he would not try on a coat, relates the Scottish American. "I dinna ken but I wad," responded the emigrant, consulting his watch; and he went in and set to work. No matter how often he found a fit, he tried on another and another till he tried on about thirty. Then again looking at his watch, he resumed his own garment and walked off, saying: "Weel, I've lost time, nae doot, but hang the fellow that'll no' oblige another when he can!"

### Useful Sand Flea.

The "sand flea" is not a flea at all. It is a crustacean, clad in a wonderful suit of armor-proof. It is rarely abroad in the daytime. Its business is nocturnal. The sand fleas are the "white wings" of the ocean strand. They come out at night in myriads and remove all decaying organic matter, animal or vegetable, that has been deposited on the beach. It is their accustomed food. Their work goes on winter and summer. As each broken billow recedes a bubbling may be perceived from ever so many little holes in the wet sand. These are the mouths of small vertical pits, in which the sand fleas dwell.

### Rare Edition of "Pilgrim's Progress."

One of the outstanding items in a recent Sotheby sale was a copy of the third edition of Bunyan's "Pilgrim's Progress," London, "Printed by Nath. Pender at the Peacock, in the Poultry, near Cornhill, 1679." This is the first complete edition of this immortal work and excessively rare. It has an engraved frontispiece by R. White in which is represented a portrait of Bunyan sleeping over a den in which there is a lion and above him Christian with book in one hand, a staff in the other and a burden on his back, toiling up from the City of Destruction to a city on the heights bathed in sunlight.—Boston Transcript.

### Best Preparation for Writer.

"Read the Bible for illumination, knowledge and power," said Dana; "Gulliver's Travels" for detail, and Robert Louis Stevenson for style." Any man or woman who will make a study of the Bible and who will analyze "Gulliver's Travels" and sing Robert Louis Stevenson into his heart, will become a good writer, provided there is also natural talent to start with.

**Chamberlain's Cough Remedy**  
This remedy is intended especially for coughs, colds, croup and whooping cough. From a small beginning its sale and use has extended to all parts of the United States and to many foreign countries. This alone is enough to convince one that it is a medicine of more than ordinary merit. Give it a trial and you will find this to be the case.

### CHRISTIAN SCIENCE SOCIETY.

Sunday morning service in the Ader block on the second floor at 11 o'clock. Wednesday evening testimony service at 8 o'clock. All are welcome.

### Dr. R. B. Richards

Physician & Surgeon

Office: Central National Bank Bldg. office; Residence 505 Elm Street.

Phone: Office 356. Residence Red 407.

**CHICHESTER'S PILLS**  
THE DIAMOND BRAND.

### Indigestion, Bilkness, Constipation.

Chamberlain's Tablets have restored to health and happiness hundreds who were afflicted with indigestion, biliousness and constipation. If you are troubled in this way give them a trial. You are certain to be pleased for they will benefit you.

### LADIES.

When irregular or delayed use Triumph Pills. Safe and always dependable. Not sold at drug stores. Do not experiment with others, save disappointment. Write for "Relief" and particulars. It's free. Address National Medical Institute, Milwaukee, Wis.—Adv.

### NOTICE TO AGRIEVED TAXPAYERS OF PUTNAM COUNTY

Persuant to an act entitled: "Taxation" approved March 11, 1919, section 171 of the tax law, the state Board of tax commissioners will at their fourth session in room 36, State House, city of Indianapolis, hear any grievance of any agrieved tax payer. All grievances must be made upon forms obtained at the office of the county assessor of said county. All forms must be filed not later than December 1.

PAUL PRIEST, ASSESSOR  
December 1, 1919

EVERY PAGE A LOCAL PAGE

### Constipation

The beginning of almost every serious disorder is constipation. If you want to enjoy good health keep your bowels regular. This is best accomplished by proper diet and exercise, but sometimes a medicine is needed and when that is the case you will find Chamberlain's Tablets are excellent. They are mild and gentle in their action, easy and pleasant to take. Give them a trial. They only cost a quarter.

I will have a car load of potatoes on track of the Big Four tomorrow. Will be on track for three days. See me for prices before buying elsewhere. J. E. CASH, East side square

## Tested 250,000 Miles Three-Point Cantilever Springs Greatest Improvement Since Pneumatic Tires

OVERLAND 4 has been put through the most thorough and severe test possible.

250,000 miles of mountain trails, desert sand, heat, cold, mud and dust, demonstrated the quality of every part of the car long before we began manufacturing.

This remarkable test showed conclusively that Three-Point Cantilever Springs, exclusive with Overland, are the greatest improvement in riding comfort since the introduction of pneumatic tires.

They protect the car from road shocks and prolong the life of every part.

They enable the wheels to hold better to the road. They give

greater comfort under all road conditions.

They do away almost entirely with side sway and rebound which twist and rack the car.

Diagonal attachment of the Three-Point Springs at both ends of a 130-inch Spring-base gives the steadiness and smooth riding of the heavy car of long wheelbase.

Equipment is complete from Auto-Lite Starting and Lighting System to Marshall Divan Spring Upholstery.

Come in and see this car. Ask for Booklet. Overland 4 Touring, \$845; Roadster, \$845; Coupe, \$1325; Sedan, \$1375; Prices f.o.b. Toledo.
